

Microsoft Security, Compliance, and Identity Fundamentals (SC-900T00-A)

Duration : 1 Days

Course Content

This course provides foundational level knowledge on security, compliance, and identity concepts and related cloud-based Microsoft solutions.

Who Should Attend

The audience for this course is looking to familiarize themselves with the fundamentals of security, compliance, and identity (SCI) across cloud-based and related Microsoft services. The content for this course aligns to the SC-900 exam objective domain. Candidates should be familiar with Microsoft Azure and Microsoft 365 and understand how Microsoft security, compliance, and identity solutions can span across these solution areas to provide a holistic and end-to-end solution. Before attending this course, students must have:

- General understanding of networking and cloud computing concepts.
- General IT knowledge or any general experience working in an IT environment.
- General understanding of Microsoft Azure and Microsoft 365.

Course Outline
